

Young Once

Sam Hunt

She said, "We're only young once"
In the back of a Chevrolet
"Hey Now" on the radio
Ashes in the tray
You can only get drunk once
On this kind of naivety
Who knows how long we're always gonna feel this way?

Time goes by and it'll dull the razor
And we don't know why
Let's worry 'bout that later
'Cause if we never do nothing else stupid
If we never do nothing else stupid
At least we know someday
That we can look back and say
We were young once

We were young once
We were gung-ho, singing in the sun once
Backroads in the wild, on the run once
Cheap thrills, doing things in the wheat fields
We were young, we were young, we were young once
We were young once

She said let's get a cheap hotel
And make out in the hall
I'll cover up your mouth
And play it cool if my parents call
Let's get lost tonight
Before the world's too small
Someday we're gonna know too much to know it all

Time goes by and it'll dull the razor
And we don't know why
Let's worry 'bout that later
'Cause if we never do nothing else stupid
If we never do nothing else stupid
At least we know someday
We can look back and say
We were young once

We were young once
We were gung-ho, singing in the sun once
Backroads in the wild on the run once
Cheap thrills, doing things in the wheat fields
We were young, we were young, we were young once
We were young, we were young, we were young once
We were young, we were young, we were young once

We were young once
We were young once

We were young once
We were gung-ho, singing in the sun once
Backroads in the wild on the run once
Cheap thrills, doing things in the wheat fields
We were young, we were young, we were young once

We were young, we were young, we were young once
We were young, we were young, we were young once

We were gung-ho, singing in the sun once
Backroads in the wild, on the run once
Cheap thrills, doing things in the wheat fields
We were young, we were young, we were young once
We were young, we were young, we were young once
