

# My Career in Chemistry

Sam Phillips

We had the concoction  
No knows  
Never found a formula  
To its exposed  
Combining the combustible

My, my, my, my  
My career in chemistry

I'd rather be alone  
Than with someone that doesn't know  
Secrets a little bit of code  
Experts demanded amateurs  
My, my, my, my  
My career in chemistry  
You're the chemical that never did work out  
I still wear you  
Ba, ba, ba, ba

My, my, my, my  
My career in chemistry

Rational explanations for stealing the show  
Miscalculating what I didn't know  
There were signs of a struggle  
My, my, my, my  
My career in chemistry  
You're the chemical that never did work out  
Some experiment  
Ba, ba, ba, ba
