

Hurt's all gone

Samantha Fish

How many nights I wait for you
When you never and never came around
I cry myself to sleep almost every night
But then you walk right in and everything's alright

Because the hurt's all gone
When you hurt me, yes
The hurt's all gone
When you kiss me, yeah
The hurt's all gone
'Til you go away

My friends all say they see you running
With a new girl each and every night
Sometimes the pain is more than I can bear
But when I [?], now baby, I don't care

Because the hurt's all gone
When you hurt me, yes
The hurt's all gone
When you kiss me, yeah
The hurt's all gone
'Til you go away

The way you treat me only makes me love you more
'Cause baby, all kind of love makes it worse
[?] for me

Because the hurt's all gone
When you hurt me, yes
The hurt's all gone
When you kiss me, yeah
The hurt's all gone
'Til you go away

How many nights I wait for you
When you never and never came around
I cry myself to sleep almost every night
But then you walk right in and everything's alright

Because the hurt's all gone
When you hurt me, yes
The hurt's all gone
When you kiss me, yeah
The hurt's all gone
'Til you go away
Can't you stay, oh
