

# Money To Burn

Samantha Fish

I ain't gonna fight it  
And I ain't gonna deny it  
It's comin' out  
I don't care if you like it

Hold on to what you got  
I just need a little bit more  
This time it's that real thing  
I'm not gonna fight you for the door

Day by day, night by night  
I ain't gonna mind that warnin' light  
I'm findin' out, it's too late to turn  
Got nothing to lose, and money to burn  
Oh, money to burn

You got yourself a new desire  
Livin' easy, ain't livin' free  
I might be dancin' in the dark  
But that's where I wanna be now

Red light night  
In your cheap sleazy blue suit  
Tell me everything I wanna hear  
Anything but the truth

Day by day, night by night  
I ain't gonna find that warnin' light

I'm findin' out, it's too late to turn  
Got nothing to lose, oh, and money to burn

I can feel it in the air  
So close that door and pull the shade  
It's a whole lot of trouble  
Comin' down, comin' down in spades

I might not have it all together, no  
But this old house, it's just not big enough for me  
I grew ten feet in twenty years  
Since you let me be, no no

Day by day, night by night  
I ain't gonna mind that warnin' light  
I'm findin' out, it's too late to turn  
Got nothing to lose  
Oh, no no

Day by day, night by night  
I ain't gonna mind that warnin' light  
I'm findin' out, it's too late to turn  
Got nothing to lose  
Oh! And money to burn  
I got money to burn
