

Somebody's Always trying

Samantha Fish

Yeah!

Somebody's always talking about the way he talks
Somebody's always talking about the way he walks
Somebody's always thinking something smart to say
Somebody's always trying to take my baby away

Somebody's always telling me he looks so fine
Somebody's always trying to change his mind
Somebody's always trying their best to lead him astray
Somebody's always trying to take my baby away

Every time I look around there's some new tease
Filling up my baby's hair with all kind of pleas
They ain't leaving on his doorbell
Knocking on his door
Telling him he look just like a movie star

Somebody's always giving him the dreamy look
Somebody's always trying to get my baby shook
Somebody's always trying their best to lead him astray

Somebody's always trying to take my baby away

Hey, ay, hey, ay, hey

Somebody's always giving him the dreamy look
Somebody's always trying to get my baby shook
Somebody's always talking about the way he [?]
Somebody's always trying to take my baby away

Every time I look around there's some new tease
Filling up my baby's hair with all kind of pleas
They ain't leaving on his doorbell
Knocking on his door
Telling him he look just like a movie star

Somebody's always giving him the dreamy look
Somebody's always trying to get my baby shook
Somebody's always trying their best to lead him astray
Somebody's always trying to take my baby away

Hey, oh
