You Got It Bad

Samantha Fish

A major feat, a heart of gold
You're searching the skies, but the stars gone cold
You got it bad, you got it bad
You got it bad, you got it bad

You got it bad, you got it bad
Better than you ever had

Looking for answers, that you needed to know
Now you're searching for reasons, to not let this go
Baby, you got it bad, you got it bad
See, you got it bad, you got it bad

You got it bad, you got it bad
Better than you ever had

Snakes in your garden, just devil's decor
Swallow that poison you been asking for
The shapes have shifted, chasing a ghost
Your slave to the thing that you love the most

You got it bad, you got it bad
Better than you ever had
You got it bad, you got it bad
Better than you ever had
You got it bad
