

# What You Want

Samantha Jade

Hush up, sit back and listen, I wanna cater to you  
I wanna take this time baby to show you how much I love you  
I see you've been working hard, you got so much on your mind  
Put down your bags baby and just come inside

Do nothing I got it under control, just enjoy the show yeah

I just wanna give you what you want  
Sorry but you're not the only one  
Cause your body's calling me and you know it  
All I ask for is you with lights down low  
I just wanna give you what you want

Tonight I'm on a mission, I won't let nobody intrude  
Gonna take my time baby, to do things you never knew I could do  
Love me right baby, whisper on your skin  
Touch me like I won't ever feel again

Do nothing I got it under control, just enjoy the show yeah

I just wanna give you what you want  
Sorry but you're not the only one  
Cause your body's calling me and you know it  
All I ask for is you with lights down low  
I just wanna give you what you want

Baby, I'll be forever yours  
Forever  
'Cause it's us against the world,  
Together

I just wanna give you what you want  
Sorry but you're not the only one  
Cause your body's calling me and you know it  
All I ask for is you with lights down low  
I just wanna give you what you want
