Money can't buy love
And love is uncountable
Expcet for me I'll be all in the club
Taking shots to ease my sorrow
I'll be taking shawty down I don't even know her name
Well karma is a bitch riding lesson in my brain
Early night a different girl, Lola though they're the same
Shawty I can't sleep
Tired of these ambien nights nights nights nights, nights night
Tired of these ambien nights nights nights
Shawty I can't sleep
Tired of these ambien nights nights nights nights, nights
Tired of these ambien nights nights nights
Shawty I can't sleep
I need an ambien
I keep on the same shit
Over and over
What the fuck is wrong with me
Is just money can't buy love
And I trade my fucking fame in
'Cause this girl that I'm leaving with
Is the same shawty I came with
I'll be taking shawty down I don't even know her name
Well karma is a bitch riding lesson in my brain
Early night a different girl, Lola though they're the same
Shawty I can't sleep
Tired of these ambien nights nights nights nights, nights night
Tired of these ambien nights nights nights
Shawty I can't sleep
Tired of these ambien nights nights nights nights, nights night
Tired of these ambien nights nights nights
Shawty I can't sleep
I need an ambien
I need an ambien
Shawty I can't sleep
I need an ambien
