

# Bounce Back

Sammie

What they say  
You should let it go  
And if it comes back that's when you know it's yours  
I can't say  
That I want you gone  
But we got some issues girl  
We can't ignore them  
I'm not tryna hurt you  
Don't wanna hurt us  
But we should let it breathe take some time there's no pressure

I'm just sayin'  
A little space never hurt no one in the long run  
Girl we'll be okay  
Just have faith in me

We got away from the love  
We forgot where it was  
But it's okay cause I know how to fix it baby  
Take it back to the start where it came from the heart  
Get the love back  
Cause baby I know

I know you've been stressed out to the wire  
So now I'm gonna set you free  
Just so we can bounce back  
I know we can bounce back  
I know it gonna bounce back  
Our love is gonna bounce back

The definition of unconditional love  
Is love you for who you are  
Accept your flaws and all  
You should do the same for me  
In order to make it for  
Sometimes you undo the hurt  
But I know it's hard to let go  
My heart's forever yours  
If we can make it through this  
Then we can make it through anything  
It don't matter I see how you been feeling  
Just wanna help you deal and make it correct  
Just have faith in me

We got away from the love  
We forgot where it was  
But it's okay cause I know how to fix it baby  
Take it back to the start where it came from the heart  
Get the love back  
Cause baby I know

I know you've been stressed out to the wire  
So now I'm gonna set you free  
Just so we can bounce back  
I know we can bounce back  
I know it gonna bounce back  
Our love is gonna bounce back

Soon as this gets resolved  
Believe I'm coming for you, you you baby baby  
If this stands the test of time  
Then that means our love is true  
Our love is true  
Baby cause we

We got away from the love  
We forgot where it was  
But it's okay cause I know how to fix it baby  
Take it back to the start where it came from the heart  
Get the love back  
Cause baby I know

I know you've been stressed out to the wire  
So now I'm gonna set you free  
Just so we can bounce back  
I know we can bounce back  
I know it gonna bounce back  
Our love is gonna bounce back
