

# Don't Wake Me Up

Sammie

If this is a dream girl, don't wake me  
Just leave me right here on my own  
There's no other girl for me baby  
Whenever you're near, I grow stronger

As we lay between the sheets, baby I want you to know  
How good you feel, this loves' so real  
Take me in as deep as we can go with getting physical  
Girl hold on tight and don't let go

Don't wake me up if I'm dreaming  
Rather not know, just leave me so  
Don't wake me up, now I ain't leaving  
I'm staying here with you babe  
You babe, you babe  
Don't wake me up

If love lasts forever, I'm ready  
Sign my name on the, dotted line  
If a genie would grant just one wish (Just one wish)  
I'd ask would he slow down the time, oh-ohh

As we lay between the sheets, baby I want you to know  
How good you feel, this loves' so real  
Take me in as deep as we can go with getting physical  
Girl hold on tight and don't let go

Don't wake me up if I'm dreaming  
Rather not know, just leave me so  
Don't wake me up, now I ain't leaving  
I'm staying here with you babe  
You babe, you babe  
Don't wake me up

Is this silver and gold?  
This moment we're in, let's marinate  
Baby I love you, I just can't wait  
Ohh, ohh, ohh  
Let it marinate to the harmony  
Baby that's you and me  
Oh-oh, let it marinate babe  
Don't wake me up  
Baby girl don't wake me uu-uup  
You and me, babe

Don't wake me up if I'm dreaming  
Rather not know, just leave me so (I'm good, I'm good)  
Don't wake me up, now I ain't leaving  
I'm staying here with you babe  
You babe, you babe  
Don't wake me up

Don't wake me up, no  
Don't wake me up
