

H.L.I.T.L.

Sammie

You got that ass, you know it
You got that class, you show it
I can't contain, control it
You gon' be my main, I know it
You need a charge, pull over
You cold like Minnesota
I'm blessed to have you over
I'll hold you down, I'll hold ya

Baby, if we go up, would you hold me down?
Can't let these other women get too close to me
They out to get me, switching sides, too close to me
I need you right here, come close to me
Baby, I'm ride or die, ain't no selling out
We gon' show 'em how it's 'posed to be
Girl, you official and you really got a hold on me
I want this feeling for a long time, no no

Baby, how long is too long, long, long?
Too long, long, long
'Cause I want your loving all night
Been a while since somebody loved me right
Too long
Baby, how long is too long, long, long?
Too long, long, long
'Cause I want your loving all night
Been a while since somebody loved me right
Too long, baby

You got that vibe, I like it
You feed my appetite
Girl, you complete my puzzle
Baby, you fit so nice
Girl, you don't do no drama
Take you to meet my Mama
I don't mind spending commas
No, I don't mind spending commas

Baby, if we go up, would you hold me down?
Can't let these other women get too close to me
They out to get me, switching sides, too close to me
I need you right here, come close to me
Baby, I'm ride or die, ain't no selling out
We gon' show 'em how it's 'posed to be
Girl, you official and you really got a hold on me
I want this feeling for a long time, no no

Baby, how long is too long, long, long?
Too long, long, long
'Cause I want your loving all night
Been a while since somebody loved me right
Too long
Baby, how long is too long, long, long?
Too long, long, long
'Cause I want your loving all night
Been a while since somebody loved me right
Too long, baby

(Baby, how long is too long, long, long?
Too long, long, long)
