

Lullaby

Sammie

Shorty you a diamond, a diamond in the rough
But he can't see it, it seems he'd rather bring you down

But I see everything you should be
And girl you should be with me
Ah baby, I know, I know

I could tell you wonder up
I just wanna see you smile my baby
And make it all worth your while
I wanna make you love me, make you love me now
Feed your heart some maw
Feel my love right now
Baby, don't you cry

Just compress it dry, baby
Like your pretty eyes, baby
Here's my lullaby, baby
I'm singin' to you, I'm singin' to you oh oh oh

I can give you what you need
Shorty you in love with (oh, my lover)
You can give your heart to me
I hope you hear my lulla, hear my lullaby

Baby, I ain't lyin'
I know it's all that you used to, all that you used to yea
Can't you see I'm tryin'?
To be the man you should get used to

But I see everything you should be
And girl you should be with me
Ah baby, I know, I know

I could tell you wonder up
I just wanna see you smile my baby
And make it all worth your while
I wanna make you love me, make you love me now
Feed your heart some maw
Feel my love right now
Baby, don't you cry

Just compress it dry, baby
Like your pretty eyes, baby
Here's my lullaby, baby
I'm singin' to you, I'm singin' to you oh oh oh

I can give you what you need
Shorty you in love with (oh, my lover)
You can give your heart to me
I hope you hear my lulla, hear my lullaby

Just compress it dry, baby
Like your pretty eyes, baby
Here's my lullaby, baby
I'm singin' to you, I'm singin' to you oh oh oh

I can give you what you need
Shorty you in love with (oh, my lover)
You can give your heart to me
I hope you hear my lulla, hear my lullaby

I'm singin' to you, I'm singin' to you oh oh oh
Love me, baby
Hear my lulla, hear my lullaby
