

# REGRET

Sammie

Oh, oh, oh, oh  
Oh, oh, oh, oh  
Oh, oh, oh, oh  
Oh, oh, oh

We got a problem, a real dilemma  
And I'm down to solve them, but you gotta tell me now  
Cause if we go further, things are destined to change  
Girl, you got a good thing, but girl I'm the better one  
And I hate it when really we just think about  
The chemistry and all the love between that we make  
Oh baby!

So if I kissed you there, would you tell me to stop?  
I mean it!  
So if I pulled your hair while I'm making you feel  
Like you're dreaming?

Don't regret it, don't!  
Don't regret it, don't!  
Don't regret it, don't!  
You love me more,  
Just admit it, Just admit it, just admit it!  
Don't let us be that regret!

I won't break your heart  
Baby, I promise  
And we can't stay apart  
Girl, let's be honest  
Ain't you sick and tired thinking about me while you're with him  
Oh, oh, oh  
You say we're best friends, but you know it's more than that  
Cause friends don't indulge in the things that we be about  
The chemistry and all the love between that we make  
Oh baby!

So if I kissed you there, would you tell me to stop?  
I mean it!  
So if I pulled your hair while I'm making you feel  
Like you're dreaming?

Don't regret it, don't!  
Don't regret it, don't!  
Don't regret it, don't!  
You love me more,  
Just admit it, Just admit it, just admit it!  
Don't let us be that regret!

All that I think about  
You're my lover and friend I can't shake it  
Oh it' so usual is mutual  
Can't let it go by so I'll take it

Don't regret it, don't!  
Don't regret it, don't!  
Don't regret it, don't!  
You love me more,

Just admit it, just admit it, just admit it!  
Don't let us be that regret!
