

TRYNA FALL ASLEEP (INTRO)

Sammie

Just received a text from my ex saying that she still love me,
fuck she still love me
But my new girl's right here how am I to feel
Damn I'm just tryna to fall asleep yeah
Meanwhile, meanwhile my girl think that I'm cheating
Everytime I leave the city, why me?
Don't she know this music shit be stressful
So maybe we should let go, IDK, I don't know
Groupies be all up on me, 25 of the weight of the world
At the top so you know it's lonely, fake friends fuck that I'm
fed up
Sleeping pills ain't working I'm accustomed to the substance, I
'm a mess
I'm staring at the ceiling, a prisoner of my mind
Damn I hate this feeling, I can't sleep at night
Tossing and turning, guess I'll let it burn in
This lesson that I'm learning got me weak
I just wanna close my eyes just one good night
Damn I just wanna fall asleep
I'm just tryna to fall asleep
