

## Cantaloupes on Mars

Sammy Kershaw

Suprised to get your letter, glad you're doin' fine  
But me I could be better, but I ain't one to wine  
Now you say you'll forgive me and let me come back home  
But trusting you to be true is the only thing ive done wrong

R:

When they grow cantaloupes on mars  
I'll come back to you  
When they serve quiche in country bars  
And politicians tell the truth

When the world's fair comes to [?] louisiana  
And a cow really jumps the moon  
When they grow cantaloupes on mars  
I'll come back to you

You say you weren't unfaithful well baby that's a joke  
When you went out wearing your best perfume  
And you came back smelling like soap  
Now you say that we need to try again just for old times sake  
Before that ever happens a lot of things will have to change

R:
