

# I See Red

Sammy Kershaw

I get angry every time someone mentions her name  
I get frightening mad she's gone 'cause I know who's to blame  
I get worked up thinking 'bout the hurting words I said  
I get so fed up that I see red

I see red eyes cry, I quit, goodbye on red lips  
Me begging her to stay  
I see red hair and a red scarf, red dress and a red car  
Driving away

I see everything wrong that I did  
I see red

Looking 'round this lonely house and all I threw away  
Makes me so mad at myself, sometimes I can't see straight  
Trying to forgive myself is worse than trying to forget  
Can't do either one, I just see red

I see red eyes cry, I quit, goodbye on red lips  
Me begging her to stay  
I see red hair and a red scarf, red dress and a red car  
Driving away

I see everything wrong that I did

I see red eyes cry, I quit, goodbye on red lips  
Me begging her to stay  
I see red hair and a red scarf, red dress and a red car  
Driving away

I see everything wrong that I did  
I see red, I see red  
I just see red, I see red
