

# I Still Hear Them Playing Our Song

Sammy Kershaw

Will I ever forget  
The day that we met  
There was sunshine  
All over her face

And that look in your eyes  
Your sparklin' smile  
And the innocence  
Upon your face

I remember the laughter  
It rang ever after  
Those special moments alone  
Oh, the music that played  
On our first date  
I still hear them playin' our song

Now there aren't many left  
Who have honestly kept  
The vows they spoke  
On their wedding day

But after all we've been through  
Our love has stayed true  
And grown stronger  
With each passin' day

I remember the laughter  
It rang ever after  
Those special moments alone  
Oh, the music that played  
On our first date  
I still hear them playin' our song

Oh, the music they played  
On our first date  
I still hear them playin' our song
