

Lay Back Down

Sammy Kershaw

Drop your things to the floor
Turn around, close the door
I need a little more time under covers
Tell me what's it gonna hurt
To be a little late for work
Come back to where we were
How does that sound
Lay back down

It's an ordinary Monday
You're an extraordinary girl
Lay back down and love me
Like we got all the time in the world
Lay back down

Girl surrender to my arms
Take my hand touch my heart
And leave your tender mark on your lover
It's kinda selfish I know
But I don't wanna let you go
Say anything but no to me right now
Lay back down

It's an ordinary Monday
You're an extraordinary girl
Lay back down and love me
Like we got all the time in the world
Lay back down!

It's an ordinary Monday
You're an extraordinary girl
Lay back down and love me
Like we got all the time in the world
Lay back down
Lay back down
Lay back down...
