## Love Me, Loving You

## Sammy Kershaw

Love me, loving you Is all I want from you Forever and a day Is not long enough, I say

To show you how much You mean to me I love you, loving me

Hold me, holding you And we'll always hold on to The feelings that we share We won't let go, I swear

'Cause I'll show you how much You mean to me I love you, loving me

Your pretty smile, it drives me wild Something no one else can do So take my hand and my wedding band And tell me that you do

Now kiss me, kissing you We're one now, we're not two Together 'til the end We'll always be best friends

And I'll show you how much You mean to me I love you, loving me

Yes, I'll show you how much You mean to me I love you, loving me
