San Cisco

Hello hello
I've been waiting, watching you all night
I don't know why

In the morning
I'll be waking wishing I was right
Maybe sometimes
In the evening I'll take you out for dinner and a fight
Can't read your mind I can't read your mind
We watched the sun go down and then the moon comes out
Paint pictures with your hand
I'll chase you
I'm your biggest fan

Who's gonna catch you now who's gonna catch you now
Running so far away so far away (2x)

My mind is black and blue
It keeps pictures of you
Now I know why

You moved away from here
To another hemisphere
All I want to be is in your company
I made a mixtape
With all the songs that you hate
Can't read your mind I give up this time

Who's gonna catch you now who's gonna catch you now
Running so far away so far away (2x)

Oooooh oooh ohhh oooh oooh
Oooooh oooh oohh oooh oooh

I heard your voice today
But we last spoke in may
I still miss you
Now you're a ghost at sea
Drifting peacefully
You'll never come back to me
I read your eulogy

Who's gonna catch you now who's gonna catch you now
Running so far away so far away (5x)
