

# Keep My Heart Alive

Sanctus Real

I'm so tired of politics and all this bad news  
I'm so tired of chasing the moment instead of chasing You  
I let the World wear me down, I'm desensitized

Jesus keep my heart alive, keep my heart alive  
Only You can save me from a world that's breaking right before  
my eyes  
Keep my heart alive

Take these empty "hallelujahs", and fill my lungs again  
'Cause I want to sing, and I want to mean it  
I want to feel again  
And let the world hear the sound of something divine

Jesus keep my heart alive (Only You can save me),  
Keep my heart alive (Only You can save me)  
Only You can save me when my world is breaking right before my  
eyes

Jesus keep my heart alive (Only You can save me),  
Keep my heart alive (Only You can save me)  
Only You can save me when my hope is fading, and I'm losing the  
fight

And when the world wears me down,  
You're my lifeline  
You keep my heart alive (Only You can save me),

Jesus keep my heart alive (Only You can save me),  
Keep my heart alive (Only You can save me)  
Only You can save me when my world is breaking right before my  
eyes  
Keep my heart alive (Only You can save me)  
Oh, keep my heart alive (Only You can save me)  
You're my only hope, when my world is fading before my eyes  
Jesus keep my heart alive  
Keep my heart alive
