

# Where Will They Go

Sanctus Real

How many times did I not stand up for you?  
Face to face with someone I hardly knew  
Where did they go from there?

Lost in the world and we may never meet again  
God, will you send me another light to lead them in?  
Where will they go from there?

Love, show me the way  
When I'm afraid to say the right thing  
I'm a stone, frozen in place  
I need your grace to show me how to love

How many lives could be changed if I'd convey  
All of the words that I was scared to say?  
Show me the way from here

Love, show me the way  
When I'm afraid to say the right thing  
I'm a stone, frozen in place  
I need your grace to show me how to

Love, show me the way  
When I'm afraid to say the right thing  
I don't know where they will go  
As long as I know I have shown your love

I am lost without your love  
I am lost without your love

Love, show me the way  
When I'm afraid to say the right thing  
I'm a stone, frozen in place  
I need your grace to show me how to

Love, show me the way  
When I'm afraid to say the right thing  
I don't know where they will go  
As long as I know I have shown your love
