

# This Ol' World

Sandi Thom

This ol' world's got a hold on me  
All I feel is this anxiety  
Gotta keep on moving out of this place  
The only thing that stops me is when I see your face

This ol' world's gone crazy mad  
Nursing the broken hearts too many feeling sad  
There's just too much to think about  
And not enough time  
Cos your sweet loving's the only thing on my mind

This ol' world's got a hold on me  
All I feel is this anxiety  
Gotta keep on moving  
Gotta get out of this place  
The only thing that stops me now is when I see your face

This ol' world's gone crazy mad  
Nursing the broken hearts too many feeling sad  
There's too much to think about  
Just not enough time  
Cos your sweet loving's the only thing on my mind

This old world's got me feeling blue  
Stuck in the old world thinking about you  
Gotta get on my feet again  
Get out of this place  
My hearts starts breaking baby  
Yes you know it does  
Oh my heart starts breaking baby  
Oh you know it does  
Yes my heart starts breaking baby  
When I see your face
