

# Another

Sarah Blasko

I don't need another one  
I don't need a place to go  
I've got everything right here  
I don't want to go alone

Cause I've got plans to make  
To learn from old mistakes  
Not forever want for more  
Rebuild a confidence  
Return to your defence  
To where I was before

This hit me hard don't let me go  
Don't send me off into the world  
Into the rain, the heat and snow  
Cause I don't need another one

I know that you feel beaten down  
You consider giving up sometimes  
But the morning comes, I see the signs  
A new horizon bathed in light

And there are plans to make  
We'll learn from old mistakes  
You keep me wanting more  
I'll be your confidence  
Return to your defence  
To where we were before

This hit me hard don't let me go  
Don't send me off into the world  
Into the rain, the heat and snow  
Cause I don't need another one

The world will tell you a lie  
Of all the things you need to survive

This hit me hard don't let me go  
Don't send me off into the world  
Into the rain, the heat and snow  
Cause I don't need another one

This hit me hard don't let me go  
Don't send me off into the world  
Into the rain, the heat and snow  
Cause I don't need another one
