Captain Nemo

Sarah Brightman

Under the surface so crystal clear Everyone was really tense Waiting down there He had his own world just like I had mine We'll go seperate ways 'til the next time There are no words to say as My friend swims away

Captain Nemo said, "okay" (five, four, three, two, one) Then I raised my hand and waved Captain Nemo went away (Love me when I'm gone) Left 'em all alone, Nemo's going home

And as I watched him, police boats approached An alien force haunting us like ghosts "Wish I could stay here and play for a while But I must be on my way..." The warmest of smiles Then he dived into the waves among the other whales

Captain Nemo said, "okay" (five, four, three, two, one) Then I raised my hand and waved Captain Nemo went away (Love me when I'm gone) Left 'em all alone, Nemo's going home...
