

# French Kissing

Sarah Connor

Come on, you say you love me  
I make you believe that it's love you receive  
Like a thief  
I just take what I need  
And when we're going tonight

Just an ordinary evening  
I hear voices from the ceiling  
And I really was believing  
It was my mind playing tricks on me

Went upstairs just for receiving  
Something told me you were leaving  
So I looked out of my window  
Just to see you there coming straight back to me

Do it, baby, do it  
On the beach  
Do it, baby, do it  
Down the street  
Do it, baby, do it  
You and me  
We're gonna do what they call the French kissing

Give it, baby, give it  
In the car  
Take it, baby, take it  
Wherever you are  
Give it, baby, give it  
Go too far  
We're gonna do what they call the French kissing

All the people try to reach us  
All the preachers try to teach us  
They will never find the features  
That make our love live eternally

You and me we live forever  
Breakin' rules but stay together  
So I miss your kiss and tell you this

Do it, baby, do it  
On the beach  
Do it, baby, do it  
Down the street  
Do it, baby, do it  
You and me  
We're gonna do what they call the French kissing

Give it, baby, give it  
In the car  
Take it, baby, take it  
Wherever you are  
Give it, baby, give it  
Go too far  
We're gonna do what they call the French kissing

Romeo, lover, got up and kissed her  
His Juliet girlfriend started to whisper  
"According to Caesar and to Cleopatra  
I say the top of the pop is French kissing

Live Eve and Adam, seduction led 'em  
And when they went to get down  
They found their way to heaven  
Do you want me to stop? (No)  
We're gonna do the French kissing

Do it, baby, do it  
On the beach  
Do it, baby, do it  
Down the street  
Do it, baby, do it  
You and me  
We're gonna do what they call the French kissing

Give it, baby, give it  
In the car  
Take it, baby, take it  
Wherever you are  
Give it, baby, give it  
Go too far  
We're gonna do what they call the French kissing

You just wanna feel

Dup, dup, dup, dup, dup, dup, dup, dup

Do it, baby, do it  
On the beach  
Do it, baby, do it  
Down the street  
Do it, baby, do it  
You and me  
We're gonna do what they call the French kissing

Give it, baby, give it  
In the car  
Take it, baby, take it  
Wherever you are  
Give it, baby, give it  
Go too far  
We're gonna do what they call the French kissing
