

# I'll Kiss It Away

Sarah Connor

Twenty days and twenty nights  
I'm sittin' right here by your side  
Surrounded by the monitors  
Listening to you sigh

You're sleepin' so peacefully  
Sometimes you're smilin' in your dream  
Lord why had it to be her  
Why didn't you pick me?

Until the day you're born  
Still hopin' they were wrong  
But now I'm here to make you strong

I'm with you  
I'll carry your pain  
Whenever you fall again  
I will help you stand  
Just reach out your hand  
When your world is dark  
Or you're hurt in your heart  
Come what may  
I'll kiss it away

Sing softly into your ear  
Your hand is wrapped around my finger  
Kiss your eyes  
Whisper I am here  
And this won't take much longer

And now we're havin' fries  
You're chasing butterflies  
And show the world you won the fight  
Oh yes you did

I'm with you  
I'll carry your pain  
Whenever you fall again  
I will help you stand  
Just reach out your hand  
When your world is dark  
Or you're hurt in your heart  
Come what may  
I'll kiss it away

In the darkness of the night  
I'll be there to hold you tight  
And until my final day  
I will guide you  
Come what may  
Come what may

I'm with you  
I'll carry your pain  
Whenever you fall again  
I will help you stand  
Just reach out your hand

When your world is dark  
Or you're hurt in your heart  
Come what my  
I'll kiss it away
