

# Let Us Come 2gether

Sarah Connor

Hey boy, come on over here  
Let's shake it  
Let us come together  
'Cause you're the one that I want  
Let us come together

Do you like to know about what I do  
When I start with loving you  
Wildest dreams will come true  
Making love until the day is breaking  
Hold me tight the bed is shaking  
When we do what we do  
So let's go

Breakin' it up, shakin' it up  
I'm gonna find out how do you  
Want to taste it  
Shakin' it up,  
Breakin' it up  
I'm gonna make you scream tonight

When you are the one, who's gonna  
Blow my mind  
Let us come together  
When love is all I want to feel inside  
Let us come together  
When passion rears it's head again  
Let us come together  
Won't you tell me that you feel the same  
Then we prove our love again

Do you love to do the same as I do  
Get it up and feel it too  
Never have to be blue, no no  
Earthquake, love is good to fight  
A heartache  
Stir it up and try a remake  
Lights are flashing 'round you  
So let's go

Breakin' it up, shakin' it up  
I'm gonna find out how do you  
Want to taste it  
Shakin' it up,  
Breakin' it up  
I'm gonna make you scream tonight

When you are the one, who's gonna  
Blow my mind  
Let us come together  
When love is all I want to feel inside  
Let us come together  
When passion rears it's head again  
Let us come together  
Won't you tell me that you feel the same  
Then we prove our love again

When appetite is what I feel inside  
Let us come together  
When flames are dancing in  
My heart at night  
Let us come together  
When all the world gets out of sight  
Let us come together  
Won't you tell me that you feel the same  
Then we prove our love again

Baby, the time is right to see the light  
'Cause baby, the stars are shining bright  
And maybe we will lose ourselves  
Deep down inside

Won't you tell me that you feel the same  
Than we prove our love again  
So get it up, put your pants off and make it  
Let us come together  
We'll never stop , take a chance  
Don't you fake it  
Let us come together  
'Cause every time it depends if you break it  
We're bringin' it up to the top  
Shake it, shake it

When you are the one, who's gonna  
Blow my mind  
Let us come together  
When love is all I want to feel inside  
Let us come together  
When passion rears it's head again  
Let us come together  
Won't you tell me that you feel the same  
Then we prove our love again

When appetite is what I feel inside  
Let us come together  
When flames are dancing in  
My heart at night  
Let us come together  
When all the world gets out of sight  
Let us come together  
Won't you tell me that you feel the same  
Then we prove our love again
