

# Halley's Comet

Sarah Darling

"Look at the sky", he said  
"It's going by", he said  
Halley's Comet won't be back for years

A spinning world I was  
A little girl, I was  
Sure and honest hadn't tasted fear

What was it about that time?  
That keeps me staring at the sky  
Hoping someday I would find  
In the mystery  
There's a place for me  
To shine

"Chase the dream", he said  
"You were born to sing", he said  
So I stepped out on that darkened stage

When the lights hit me  
Fire hot lit me  
In the spotlight a star was made

What was it about that time?  
That keeps me hanging on the line  
Hoping someday I would find  
In the mystery  
There's a place for me  
To shine

To shine  
To shine  
To shine

Spark and burn I will  
Wait my turn I will  
Trust the gravity  
Trust the light

In the middle of the night  
I'll be staring at the sky  
Hoping someday I would find  
In the mystery  
Waiting patiently  
There's a place for me  
To shine
