

## Love Can't Lie

Sarah Geronimo

still recall the warmth of the night  
try to ease the pain in my heart  
and now that your out of my sight  
tears fall from these eyes  
echoes of my voice slowly die fears in every corner of my mind  
and even if it's over  
still can't bear with time

how could you go?  
how could you say goodbye?  
it hurts inside cause by now  
still can't find the reason why love can't lie

knowing that my life is so unkind  
so leave my thoughts and mem'ries behind  
but angels brought me to the past  
i'm with you at last

\*in you i have found my life  
you brought me to paradise  
happiness that i can't hide  
i feel inside  
(repeat chorus)  
instrumental  
(repeat\*)

chorus....still can't find the reason why it's hard to try with  
cryin' all the time  
my fate is you  
and somehow keep myself from lovin' you  
love can't lie
