

## Words Can't Describe

Sarah Vaughan

Words can't describe the way  
that I feel for you.  
Words can't describe the dreams  
that you've made come true.

The wonderful things  
that we planned together  
have all come true  
because we planned together  
through all kinds of weather.

I know that this love of ours  
will forever be  
for words can't describe the way  
that you're thrilling me.

I promise you that I will be  
forever yours eternally  
for words can't describe how much  
you mean to me.

The wonderful things  
that we planned together  
have all come true  
because we planned together  
through all kinds of weather.

I know that this love of ours  
will forever be,  
for words can't describe the way  
that you're thrilling me.

I promise you that I will be  
forever yours eternally  
for words can't describe how much you mean to me.

Words can't describe how much  
you mean to me.
