

# The Wicked Window

Saviour Machine

Watching me, watching me  
Look and see  
Nothing and no one is safe  
The ministry enslaves  
Stay asleep  
Keep unto your dream  
Keep unto your dream  
Lie down and bow to the lies  
The Wicked Window's eyes

The Wicked Window's eyes - They penetrate illusion  
The Wicked Window's eyes - They fortify the lies  
The Wicked Window's eyes - They hypnotize the others  
The Wicked Window's eyes - Then horrifies my eyes

Peepshow, creepshow  
Peepshow, freakshow

Open the vault to the voices within  
Cry from the depth of the grave  
Shadows may follow the essence of men  
Tried for the death of the slave  
suddenly someone is there at the door  
Waiting to show you the way

Fortress of eminence waits in the wings  
Watching me wear down them all  
Central intelligence agency freaks  
Listen to every call

Call me, Call me, Call me the one  
See me, See me, I'll never run  
Watch me, Watch me Watch me perceive  
Make me, Make, Make me believe

Watch me tear down your wall  
Tear down you wall  
Tear down you wall  
Tear down you wall
