```
I need to sit and talk to you and open up my heart
I can feel it comin' up from the deepest part
I guess I am tryin' to say I love you, I'm callin' out
Can you hear me now
Can you hear it in a whisper
Can you hear it when I shout it loud
Can you hear it in the way I try to say
I feel about you and don't know how
Can you hear me now
I never had a way with words so I haven't said
What I'm getting closer to the closer we get
I think I'm tryin to say I love you ain't no doubt
Can you hear me now
Can you hear it in a whisper
Can you hear it when I shout it loud
Can you hear it in the way I try to say
I feel about you and don't know how
Can you hear me now
It really isn't such a meticulous thing
We shouldn't have to work this hard
It can get to be a ridiculous thing
When you let it go this far
I love you
I said I love you
I said I love you
Can you hear me now
```
