

# Fire In The Rain

Sawyer Brown

Well, I've been running right behind you  
Lord, I'm wearing out my shoes  
I been saving up my lovin', saving it for you  
Well, it's like trying to build a fire in the rain

It's like trying to build a fire  
When the rain is pouring down  
Like swimming in muddy water  
Treading slow until you drown  
It's like trying to stop a clock, Lord  
like trying to stop a train  
It's like trying to build a fire in the rain

Well, I keep asking 'bout your love, dear  
But you won't ever say  
"I've been looking for direction"  
But you won't show the way  
Well, it's like trying to build a fire in the rain

It's like trying to build a fire  
When the rain is pouring down  
Like swimming in muddy water  
Treading slow until you drown  
It's like trying to stop a clock, Lord  
like trying to stop a train  
It's like trying to build a fire in the rain

Well, it's like trying to build a fire in the rain

It's like trying to build a fire  
When the rain is pouring down  
Like swimming in muddy water  
Treading slow until you drown  
It's like trying to stop a clock, Lord  
like trying to stop a train  
It's like trying to build a fire in the rain
