I Got A Plan

Sawyer Brown

I believe this world we live in is like a big blue door That we come into and then we pass through Like so many have done before And I believe a baby is a miracle So is the love that life becomes So begins this beautiful journey With our Father and with His Son

Leading and guiding and giving us strength in our faith I know it's through grace I got a plan to be with angels I got the sweetest promise there has ever been I got a handful of people I love And I want to be there with them A seven-day saint or a seven-day sinner It seems my soul is always on the run But I got a plan to be with angels I love where angels are comin' from

Sometimes I have this vision I see that river, and I see the shore And I walk down into the water Till I don't want, till I don't want no more I wake up with this peaceful feeling In my heart, my soul and my mind What was once a weight on my shoulders Is now the hand of something divine

Leading and guiding and giving us strength in our faith I know it's through grace I got a plan to be with angels I got the sweetest promise there has ever been I got a handful of people I love And I want to be there with them A seven-day saint or a seven-day sinner It seems my soul is always on the run But I got a plan to be with angels I love where angels are comin' from

I got a plan to be with angels I love where angels are comin' from
