I Kept My Motor Runnin'

Sawyer Brown

Well, I'm parked outside of your daddy's house
And I'll be right here till you come out
Don't make me wait until the moon turns blue
So you can tell your mama and your daddy too
You got to go when supper's through
'Cause I got my motor runnin', baby, just for you

I kept my motor runnin', baby, just for you
I've been savin' up my lovin'
And I'll tell you true
I've been down some lonely highways
But I knew one day, you'd come my way
I kept my motor runnin', baby, just for you

We can take a ride for Heaven's sake
When the moon and the stars are congregate
But first I want to tell you what I want to do
When the other cars have all given out
And their engines cool and the fuel runs out
I'll keep my motor runnin', baby, just for you

I kept my motor runnin', baby, just for you
I've been savin' up my lovin'
And I'll tell you true
I've been down some lonely highways
But I knew one day, you'd come my way
I kept my motor runnin', baby, just for you

I kept my motor runnin', baby, just for you
I've been savin' up my lovin'
And I'll tell you true
I've been down some lonely highways
But I knew one day, you'd come my way
I kept my motor runnin', baby, just for you

I kept my motor runnin', baby, just for you
I kept my motor runnin', baby, just for you
