

Mama's Little Baby Loves Me

Sawyer Brown

You come into this world your daddy's girl
And your mama's little baby
Was a time I could see nothing left for me
Til you got me thinking maybe

You came along when I was down to love's last dime
With a heart of gold and a chance to make it mine
There ain't no stoppin love when it's meant to be
Mama's little baby loves me

Ever since the dawn of time there's been a woman on man's mind
But sometimes she meant danger
Guess I'm livin' proof of what a woman's love can do
To a man in need of a saving

I said mama's little baby loves me
Mama's little baby loves me
