

# Old Photographs

Sawyer Brown

I've been lettin' all my friends  
Take me mind off all the troubles  
They've all been glad to help me out for a while  
But your memory steps in and I'm turnin' back the pages  
Lookin' through old photographs and tryin' to find your smile

Old photographs bring back sweet memories  
Lookin' at the way I held you then  
Old phtotgraphs keep you here with me  
'Til I find a way to get back in the picture again

Somethings never change as the years go on between us  
Like all my love for you still feels the same  
All those yesterdays that I wanted to remember  
Are sittin' here beside me where these old pictures lay

'Til I find a way to get back in the picture again
