

If I Had An Airplane

SayWeCanFly

If I had an airplane
I'd fly it high up into space
Just to show you that it's ok
To be by yourself in the dark
And on my birthday
I'll use my wish to keep you safe
From all the monsters that you say
Follow you wherever you are

Even when I'm far away
When you're sleeping I'm always awake

Somewhere, I'm watching over you
Somewhere, I'm not letting go of you
I will always sing you back to sleep
If you have a nightmare
I'll wake you up and I'll be there
Running my fingers through your hair
Until you fall back asleep
Lay on my chest and let's breathe

If I had a mountain
I'd move it around and make two fit
Just in case you're scared to climb it
There'll be another to try
And in the valleys
When you fall down onto your knees
I will be following closely
I'll never leave you behind

'Cause even when I'm far away
When you're sleeping I'll still be awake

And somewhere, I'm watching over you
Somewhere, I'm not letting go of you
I will always sing you back to sleep
And if you have a nightmare
I'll wake you up and I'll be there
Running my fingers through your hair
Until you fall back asleep
Lay on my chest and let's breathe...

Somewhere, I'm watching over you
Somewhere, I'm not letting go
I will always sing you back to sleep
And if you have a nightmare
I'll wake you up and I'll be there
Running my fingers through your hair
Until you fall back asleep

If I a had an airplane, I'd fly to you every night
