

## The Distance That Took You Away

SayWeCanFly

I know I love you but I won't  
Tell you a thing in case you don't  
I know I miss you, but it's o-kay  
I don't get depressed when I am lone-ly  
But I just need something to calm my nerves  
Preferably a cigarette, or something just as absurd  
Or maybe I want my anxiety to stay  
'Cause in the end, it's all I have to ease the pain  
Of the distance that took you away  
I'll take a drink because I'm lost  
Trapped somewhere deep inside my thoughts...  
Well, I'll just remember you instead  
But I just need something to calm my nerves  
Preferably a cigarette, or something just as absurd  
Or Maybe I want my anxiety to stay  
'Cause in the end, it's all I have to ease the pain  
Of the distance that took you away
