

## Till the End

### Scars on Broadway

We were talking on the phone  
About the years that have gone  
Everyone's got heartache to share  
We're going crazy in here

I'm so happy that you're with me  
It just feels good to be free  
There's no egos  
It's just you and it's just me

There's some people that are crazy  
They've got demons in their heads  
There's some people that are crazy  
They're my friends

Stay with me till the end  
With me till the end  
Stay with me till the end  
With me till the end

I was talking to be alone  
Abused, addicted and stoned  
Everyone's got heartache to share  
We're going crazy in here

I'm so happy that you're with me  
It just feels good to be free  
There's no egos  
It's just you and it's just me

There's some people that are crazy  
They've got demons in their heads  
There's some people that are crazy  
They're my friends

Stay with me till the end  
With me till the end  
Stay with me till the end  
With me till the end

I'm so happy that you're with me  
It just feels good to be free  
There's no egos  
It's just you and it's just me

There's some people that are crazy  
They've got demons in their heads  
There's some people that are crazy  
They're my friends

I'm so happy that you're with me  
It just feels good to be free  
There's no egos  
It's just you and it's just me

That you made me what you made me  
And I'm stronger in the end

That you made me what you made me  
You're my friend

Stay with me till the end  
With me till the end  
Stay with me till the end  
With me till the end
