## **Don't Make Promises**

## **Scott McKenzie**

It seems the songs we're singing are all about tomorrow Tunes of promises you can't keep Every moment bringing the love I can only borrow You're telling me lies in your sleep

Do you think I'm not aware of what you're saying Or why you're saying it?
Is it hard to keep me where you want me staying?
Don't go on betraying it

Don't make promises you can't keep

We had a chance to find it, our time was now or never You promised me things that I need But then the things behind it took away the chance forever You're telling me lies in your sleep

Do you think I'm not aware of what you're saying Or why you're saying it?
Is it hard to keep me where you want me staying?
Don't go on betraying it

Don't make promises you can't keep Don't make promises you can't keep
