

## 27 Things I Wanna Do To You

Screeching Weasel

I've been thinking about those things  
That we've been avoiding too long  
And I've decided that somethings gotta be done  
I've listened carefully but there's other  
Things that interest me instead  
Maybe I could just drill a hole in my head

Somethings crawling around in my mind  
Everything that you do seems sublime  
We've spent broken up a miserable day  
But when tomorrow comes you'll be there  
Pounding on my brain
