

Come and See the Violence Inherent in the System

Screeching Weasel

We live in a Christian police state A nation of fat NASCAR fans
It's a classist, misogynist, fascist and despotic tool Of rich
white men with bloodstains on their hands

We're a cruelly carnivorous Gang of flat-out ridiculous Wal-
Mart sheeple breeding Big Mac-eating brats

Check out Chomsky and Zinn When they start to fill you in It'll
knock you on your ass

Thank Gawd for the chattering classes We know what's best for y
ou creeps Things like vinyl and bikes, indie coffee shops And m
icrobrews and LGBT-friendly soccer teams

They insist on imposing The corporate will of America On the wo
rld at large No matter what the cost

I've got it all figured out And I don't have any doubts So why
am I so lost?

I can't figure out what to do (3x)
