

# Curse Me Out

Seaway

Curse me out  
You're so pretty when you put me down  
Darling, every time we scream and shout  
I deserve it when you curse me out

One week, I'm gone, we're in the thick of it  
On the phone, in the wrong, I've gotta live with it  
But why the hell am I in Indiana when it comes out?

I could catch a train home  
But you don't really like me much right now

Curse me out  
You're so pretty when you put me down  
Darling, every time we scream and shout  
I deserve it when you curse me out

It's all been done, the air is getting thin  
White lies, I'm dumb and feeling sick again  
Just think about the time we drove to Portland  
And we lost ourselves

I could buy you roses, '  
Cause you don't really like me much right now  
I could buy you roses  
But petals always fall when I'm around

Curse me out  
You're so pretty when you put me down  
Darling, every time we scream and shout  
I deserve it when you curse me out

Put my clothes back on your shelf  
Let's forget and think of something else to talk about  
Are you crying?  
Hang our picture on the wall and forget you tore it down at all  
Don't let us fall  
I'm trying  
Curse me out

Curse me out  
You're so pretty with your hair short now  
Darling, every time we scream and shout  
I deserve it when you curse me out  
Curse me out  
You're so pretty when you put me down  
Darling, every time we scream and shout  
I deserve it when you curse me out

I could buy you roses  
But petals always fall when I'm around
