

Down

Secret Discovery

You and I, me and you,
At the point of no return.
Love is a lie, love is blue,
And the blue things never burn.

Who's gonna catch you when you fall?
The frozen stars above,
Keep on shining on to you.

We're moving down, down, down
And the world keeps turning on just from the start,
I keep my favorite moments deep inside my heart. (2X)

Jesus Christ, neon lights,
And a call from outter space.
throughout romance, hold me tight,
while the falseness burns my faith.

Believe in television lies,
like action movie heroes,
Waiting for a happy end.

We're moving down, down, down
And the world keeps turning on just from the start,
I keep my favorite moments deep inside my heart. (2X)

We're moving down (3x)

We're moving down, down, down
And the world keeps turning on just from the start,
I keep my favorite moments deep inside my heart. (2X)
