

## Do You Remember

Secret Service

Do you remember, remember?  
There was nothing we could do  
We spend the first night together  
Remember, remember  
You said I belong to you  
Love is forever

I walked the streets where we've been walking  
I've been to places where we used to be (used to be)  
I've seen cafes where we've been talking  
I know we talked about us - you and me (you and me)

How it hurts to see these places all alone  
How did it happen all the feelings really gone?

Do you remember, remember?  
There was nothing we could do  
We spend the first night together  
Remember, remember  
You said I belong to you  
Love is forever

What would you say if you should meet me  
In a cafe where I have been with you? (been with you)  
How would you feel, how would you treat me  
If then I told you that I missed you so? (missed you so)

Cause it hurts to see these places all alone  
How did it happen all the feelings really gone?
