

Don't You Know Don't You Know

Secret Service

Everyone can see it
In everybody's eyes
A special kind of feeling
Take you by surprise
I've got it in my eyes
When I'm looking at you
You're much too good to be true
Oh-oh
If only I knew what to do

Don't you know, don't you know?
Don't you know how I feel
When I'm looking at you?
Don't you know, don't you know?
Don't you know, can't you see -
I wanna have you
Don't you know, don't you know?

I see you through my window
I see you everywhere
I wake up in the morning
Wishing you were here
You know that I can feel
Every beat of your heart
You came into my life from the start
Oh-oh
Help me from falling apart

Don't you know, don't you know?
Don't you know how I feel
When I'm looking at you?
Don't you know, don't you know?
Don't you know, can't you see -
I wanna have you
Don't you know, don't you know?
