

Give Me Your Love

Secret Service

I keep knockin' doors
One by one
I keep climbing floors
'Til the day is done

Kept goin' on by your inspiration
Driven on by my 'magination
But I can't hold it back
Just can't hold it back

Give me your love
Just give me your love
Your love is mine, my creation
There to find inspiration

I can see your face
Inside my mind
I will find the place
I read the signs

I'm getting all of my information
Closing in on my love's creation
But I can't hold it back
Just can't hold it back

Give me your love
Just give me your love
Your love is mine, my creation
There to find inspiration
