

Painful Innocence

Seelenkrank

Remember the night without misery
Drag me down from Heaven
Morning full of emptiness
We are standing at the gate
Is this the meaning of the end?
Fading like a flower
Cold will break you
Will break your faith

This is painful innocence
We lost our passion
Darkness was waiting for us
Promises were broken
Is there an end of the lie?
We closed, we closed our eyes
Waiting for tranquility
It seems like blasphemy
